Subject: EC-11-11833 User Acceptance Testing
Attachments: UAT tracking.xls

Hi Chrys,

Following my previous email, we have now deployed the referendum video page to your development environment, ready for you to begin User Acceptance Testing. The current project plan outlines for UAT to be undertaken on Wednesday all day. If you are happy to carry out UAT tomorrow and provide any feedback by the end of business tomorrow, we will then be able to move up the reworking, and aim to deploy on Thursday, ahead of schedule. I have attached a spreadsheet for you to collate and record any bugs found during UAT.

There are a few things that are outstanding that we are aware of:

- We have not yet received the image to appear next to the Facebook link. If this is supplied tomorrow, we will be able to add it in during the time allocated for reworking (prior to deployment to production/live). We will add the Facebook metadata at the same time.
- We have added the Welsh translated text that we have received – a few phrases will appear in English on this page as we do not have the Welsh equivalent. You will be able to change these phrases to Welsh during UAT, through the CMS.
- We have not yet received the final video embed code (sample video is currently being displayed for testing purposes).
- We have added sample text below the 'copy video embed code' button – this can be changed during UAT, through the CMS.
- We will add tracking code to the referendum page (as supplied by M4C) when we deploy to production/live.

Please let me know if you have any questions.

Kind regards

Jessica

Jessica Nash
