Subject: FW: Victor the vote counter - responses

Afternoon all,

Please find attached:

- Word document with our response to the questions on Victor the Vote counter
- 2 updated timing plans, one with and one without User Testing. As we've mentioned before, we'd envisage for the UC to use a script so that we can progress with the core build in the background. Hence there is no real gain in time but dropping the user testing. Both time plans have a delivery to AMV on 1st April.

There were some additional questions that we had received via COI:

1) Please can you clarify the task 'Create text based files for UK and Wales'?
The text based filed are required accessibility and use of screen readers.

2) Could 'Being animation' start on 9 March, rather than 10 March, what's the dependency?
The main dependency here is recording a VO first in order for the animator to correctly time the animations.

Hope this answers all outstanding queries but let me know if not.

Thanks,
Alex
