Dear Mr Hartley,

BOUNDARY CHANGES - NEWPORT

Further to my two letters regarding my suggestions for alternate titles of electoral divisions on the Isle of Wight I wish to add an additional post script in reference to Newport.

I propose the area (Quay St to Prospect Rd) be included in 'Newport East' rather than 'Newport North'. 'Newport North' be retained at the boundary of 'Fairlee'.

This would transfer approximately 100 residents to the 'Newport East' division. The border should also include, in my opinion, from Parkhurst running south via Medina Way to the bridge over the road, along Hunnycross to St. James' Street. This would then run along St James' Street and into South Street, through to Church Litten joining Medina Avenue and Shide Road. At this point the boundary would then be able to follow the River Medina (southwards) to meet the proposed boundary line which crosses the river.

I am proposing this new boundary line in order for the division to regain the properties along Blackwater Road which are omitted in the current recommendations. In addition this would include the area of St. James' Street, but with the loss of Sydney Close, Chestnut Close and Milne Way, giving an overall increase of 195 residents to the electoral division.

I would also suggest the following alteration for Newport Central. Trafalgar Road and the north side of Terrace Street should be included within the boundary line for 'Newport Central', worth another 100 votes.

Thank you for your consideration of these points.

Yours Sincerely,

A handwritten signature in black ink, appearing to read 'Andrew Turner'.

Andrew Turner
Member of Parliament for the Isle of Wight
