

**Clarification of the 2012 electorate projections in the draft recommendations for Wiltshire**

On 05 June 2008, Wiltshire County Council advised the Boundary Committee for England of amendments they wished to make to their updated submission of 01 May 2008. The changes were made as a result of minor errors in the production of projected 2012 electorate figures for Wiltshire. These errors were a result of GIS software problems and small counting discrepancies.

The Boundary Committee for England has used the updated 2012 electorate projections, as listed below, in drawing up our draft recommendations of 01 July 2008.
