Hi Jelmer,

I've attached my election expenses and included them below in case you cannot access attachment.

I have receipts for all public transport, food and postage expenses but not for petrol.

The food bill refers to meals that I paid for to thank people who helped but I do not mind if these are not included, I will leave that to your discretion.

To date I have received £540 including £240 from fundraising event, £100 donation from Shirley Lewis, and a £200 cheque from the party.

Please liaise with Brian re expenses declared to the electoral commission as he is the registered election agent and therefore legally responsible.

Also note that candidate expenses are only accumulated from beginning of regulated period which I think was from 28th April but this should be detailed in your guidance notes or on the electoral office website:

Cheers,

Steven.
