**Q37. How effective, if at all, do you think each of the following would be in preventing electoral fraud taking place?
Would you say...**

- Summary Table

Base: All respondents

Summary Table							
		People being required to show some form of identification at their polling station	People being required to sign in order to check their identity before being given their ballot paper in the polling station	Having independent observers in all polling stations	Stopping people voting for others by proxy.	Stop postal voting on demand.	Stop political parties, candidates, canvassers and campaigners from handling postal vote applications and postal ballot papers.
