Agenda Item no. 3(e)

Minute of the Board’s decision by email of 29 February 2016

1 Performance Standards Framework for Electoral Registration Officers

1.1 The draft framework had been discussed at the September 2015 meeting of the Commission Board, prior to the external consultation with EROs on the proposed standards. Following the consultation, a consultation response paper was written which included the final performance standards.

1.2 In the consultation response there were no substantial objections and the standards remained unchanged from the version that the Board saw. The most comprehensive response was from the AEA and staff sought to address all the points they raised in the paper.

1.3 Commissioners were asked to approve the new performance standards framework for Electoral Registration Officers for 2016-17.

Agreed:

That the consultation response paper and the performance standards for Electoral Registration Officers be approved.
