

Route 2 - Possible Permutations

Route 2 Rules:

- The chasing cycle must include a minimum of three contact attempts where no response is received.
- Two of these three contact attempts must be directed at the property. This could be the Canvass Form, Canvass Communication B, or a door knock.
- The first contact attempt must be one of those two communications directed at the property.
- A personal canvass is required, if no response has been received, at some point in the chasing cycle. This could either be telephone calls to all the matched electors in the property for whom you hold a number or a door knock.
- The prescribed Canvass Form must be sent at some point in the cycle, along with a pre-paid, pre-addressed envelope.
