

## **06 MAY 2021 ELECTIONS - SURVEY FOR POLLING STATION STAFF – WE WOULD LIKE TO HAVE YOUR FEEDBACK PLEASE**

The Electoral Commission is collecting feedback from polling station staff and would like to hear your views and experiences of administering the elections held on 06 May. We are particularly interested to hear about your experiences of working in a polling station with COVID restrictions in place and how this may have affected the way you worked on polling day.

Your feedback is really important to us – it will not only inform our post-election reporting but will also help us to improve how we support staff in delivering well-run elections in the future, particularly if COVID restrictions are still in place.

We would be very grateful if you would fill in our short survey – it should take no more than 10 minutes of your time

This survey is entirely confidential but the feedback you provide may be used anonymously in the Electoral Commission's report on the elections and in helping us to make recommendations to improve the running of elections in the UK.

All information you provide will be treated in strictest confidence and it will not be possible to identify any individual in the published report. You can read the Electoral Commission's privacy notice here: <https://www.electoralcommission.org.uk/privacy-notice>

Please use the QR code below which can be scanned, using most smart phones, and will allow you to access the survey on your device. **PLEASE NOTE: the survey will open from 2pm today.**

The process for scanning the code will vary depending on the device you are using. On many phones the code can be scanned using either the phone camera or a pre-installed QR code scanning app. However, some devices may need a scanning app to be installed.

To scan the code, open either the camera or the relevant app and position the phone so the code appears in the middle of the screen. You should then be offered the option to follow the link and the survey should open in the browser on your phone.

If you are unable to access the survey on your mobile phone or would like to fill it in at another time you can find the survey here <https://www.research.net/r/7X6TK9W>
