Dear [redacted],

Our Ref: FOI-048-21

Thank you for your email to the Electoral Commission dated 20 April 2021 and received by the Commission on 21 April 2021.

The Commission aims to respond to requests for information promptly and has done so within the statutory timeframe of twenty working days.

Your request is shown below followed by our response.

This year I registered for a postal vote due to the ongoing COVID-19 situation. Last week I received the ballot papers for the PCC election in my area. When the candidates were confirmed I had already researched them using information on the website whocanivotefor.co.uk and decided who I would like to support. Over the weekend I went to complete the ballots for the PCC and County Council elections and was immediately flummoxed by the former. One candidate is listed as 'Conservative Candidate - More Police, Safer Streets' whist the others simply had the name of the party they were representing. My preferred candidate has published a detailed roadmap to securing Safer Streets in Lincolnshire and now I'm left wondering whether the Conservative Candidate has some sort of endorsement that enables his claim to appear on the ballot paper. I ask myself if I will now be wasting my vote if I select my preferred candidate or whether it is worth voting at all as something seems to be pre-determined, rigged or at the very least misleading.

I therefore make a formal request under the Freedom of Information Act to be supplied with copies of all documentation in respect of the application for the registration referred to, including evidence of its due consideration and reasons for approval.

Our response is as follows:

We hold the information you have requested. Please find this attached.

Exemptions under section 40(2)

You will notice that certain personal details have been redacted from the documents we are releasing. Section 40(2) provides exemption where the information requested constitutes personal data as defined by the Data Protection Act 2018 (DPA), and where release of the information requests would breach one of the data protection principles. Some of the information contained in the requested information falls within the description of personal data as defined by the DPA because the information relates directly to an identifiable living individual. This includes names

and contact details of individuals in some instances. The individuals in some cases are junior staff members and they would not reasonably expect their information to be released.

The Commission strives to be an open, transparent authority and I trust that this information satisfies your request. In some circumstances we cannot responsibly release requested information, and we ask for your understanding in this regard.

If you are not satisfied with this response, please note that the Commission operates a review procedure, details of which can be found on the Commission website at: https://www.electoralcommission.org.uk/freedom-information/make-a-freedom-information-request.

Please also note that if you have exhausted all internal Commission review procedures and you are still not satisfied you have the right to appeal to the Information Commissioner. Details of this procedure can be found on the ICO website: https://ico.org.uk/.

Yours sincerely

Consideration of the Welsh Language Measure

8. As a public body operating in Wales, we are required to carry out our functions in line with the Welsh Language (Wales) Measure 2011 and the Welsh Language Standards. We are required to treat the Welsh language no less favourably than English in performing our functions in Wales.
9. I have considered these requirements insofar as they relate to our assessment of this registration application, including the application of the statutory tests under Part II of PPERA.
10. To this end, as the party has applied to contest elections in Wales, I have sought Welsh translations of all proposed English identity marks (and vice versa), including text contained in emblems. I have considered those translations and their relevance to each of the relevant statutory tests.

Descriptions

Description 1

Proposed description	End Division, No Referendum, Rebuild Scotland
Recommendation	**Reject**
Summary reason	Does not meet the requirements of a description under PPERA.

13. In making my recommendation I have considered the factors set out in the following paragraphs.

14. I **not satisfied** that the proposed description amounts to a description under PPERA.

    a. The proposed identifier does not contain any substantive words included in the party name.
    b. The identifier is generic in nature and I believe that an elector would struggle to identify the party from the proposed description.
    c. This was also raised in public comments on the proposed identifier.
    d. For the reasons set out above, I am of the view that the proposed identifier does not amount to a description under PPERA.
    e. As my recommendation is that the proposed description does not meet the definition of a description, I have not considered the rest of the PPERA requirements or Welsh Language requirements at this stage. If the delegated decision maker is satisfied that this amounts to a description under PPERA, the rest of the requirements will be considered at that point.

Description 2

Proposed description	Not Another Referendum, Time for Recovery

15. In making my recommendation I have considered the factors set out in the following paragraphs

16. I **am not satisfied** that the proposed description amounts to a description under PPERA.

    a. The proposed identifier does not contain any substantive words included in the party name.
    b. The identifier is generic in nature and I believe that an elector would struggle to identify the party from the proposed description.
    c. This was also raised in public comments on the proposed identifier.
    d. For the reasons set out above, I am of the view that the proposed identifier does not amount to a description under PPERA.
    e. As my recommendation is that the proposed description does not meet the definition of a description, I have not considered the rest of the PPERA requirements or Welsh Language requirements at this stage. If the delegated decision maker is satisfied that this amounts to a description under PPERA, the rest of the requirements will be considered at that point.

Description 3

Proposed description	Conservative Candidate – More Police, Safer Streets
Recommendation	**Approve**
Summary reason	Does satisfy the requirements of a description under PPERA.

17. In making my recommendation I have considered the factors set out in the following paragraphs.

18. As explained above, in considering the requirements of the Welsh Language (Wales) Measure 2011 and the Welsh Language Standards, I have sought a translation for this proposed description: Ymgeisydd Ceidwadol – Rhagor o Heddlu, Strydoedd Diogelach. I have considered the relevance of the translation to each of the relevant statutory tests
    a. The record of the translation can be found here.
19. I **am satisfied** that the proposed description amounts to a description under PPERA.
    a. Although the proposed description does not include the party name in full, I believe that the inclusion of the word 'Conservative' would allow an elector to identify the party from the description.
    b. This is because while 'Conservative Candidate – More Police, Safer Streets' doesn't include the party name in full, I am inclined to believe that an elector could likely identify the party from the word 'Conservative' alone, given the well-established political connection between the word 'Conservative' and the Conservative and Unionist Party
    c. I am therefore of the opinion the phrase 'Conservative Candidate' is sufficient for an elector accurately identify the applicant party.
20. I am of the view that registration of the identifier **is not likely** to result in electors confusing the applicant party with another registered party.
    a. Below are the most similar identifiers currently on the register.
        - Conservative Candidate – More Police, Safer Streets
        - *English Democrats – "More Police – catching criminals!"*
        - *UK VOICE safer and stronger UK*
    b. I am not of the view that registration of the proposed identifier would be likely to cause confusion with identifiers currently on the registration.
    c. This is because the 'English Democrats - More Police – catching criminals' identifier is, in my view, sufficiently different from the 'Conservative Candidate – More Police, Safer Streets' identifier and is unlikely to result in electors confusing the parties.
    d. Moreover, while the word 'Safer' is used in the identifier for 'UK VOICE safer and stronger UK', the word 'Streets' is not listed as an identifier on the register.
    e. The 'UK VOICE safer and stronger UK' identifier is, in my view, also sufficiently different from the 'Conservative Candidate – More Police, Safer Streets' identifier and is unlikely to result in electors confusing the parties.
    f. Using an electronic search, I found no significant matches with the proposed identifier that would be likely to result in electors confusing the party with another registered party.
21. I am not of the view that the Welsh translation of the identifier would be likely to result in confusion.

a. The only Welsh word currently on the register that is included in the translation is ‘Ymgeisydd’, which translates as ‘candidate’.

b. I welcome the views of the Welsh Office, if there is any potential for confusion that has not been identified.

22. The proposed identifier **is not the same** as another identifier on the register

23. I am of the view that registration of the identifier **is not likely** to result in electors confusing the applicant party with another registered party.

24. The proposed identifier **is not more** than six words.

25. The proposed identifier, in my view, **is not** obscene or offensive.

26. The proposed identifier, in my view, if published is **not likely** amount to the commission of an offence

27. The proposed identifier, in my view, is **not likely**, were it to appear on a ballot paper, to result in an elector being misled as to the effect of their vote.

    The proposed identifier, in my view, is **not likely,** were it to appear on a ballot paper, to contradict, or hinder an elector’s understanding of, any directions for their guidance in voting.

28. The proposed identifier **does not** include any script other than Roman Script.

29. The proposed identifier **does not** include a word or expression prohibited by order made by the Secretary of State.

19 February 2021 – [redacted]	I wish to submit an objection to the application by the Conservative and Unionist Party to register two new descriptions (https://www.electoralcommission.org.uk/who-we-are-and-what-we-do/party-registration-applications/view-current-applications). The descriptions are 'End Division, No Referendum, Rebuild Scotland' and 'Not Another Referendum, Time For Recovery'. My objection refers to the clear statement in the Commission's Overview of Party Names, Descriptions and Emblems (https://www.electoralcommission.org.uk/media/5134), on page 5 "A party description is an optional identity mark that you can register in addition to the party name. A voter must be able to identify your party from the description. For example, a way to do that may be to include the party name in the description. If in the Commission's opinion, a voter cannot identify the party from the description, it is not a description under PPERA and cannot not be registered". I would further refer to precedent decisions, firstly to refuse and then to remove, registered descriptions. Both refer to the registered party Old Swan Against Cuts. On 26 February 2020, the Commission refused that party's application to register the description, 'End Austerity - Stockport Against the Cuts' (ref CCM:0488407); on 3 February 2021, the Commission gave notice to remove the Party's already registered descriptions, 'End Austerity' and 'No Austerity' (ref CCM:0288497). Both decisions referenced the aforementioned excerpt from the Commission's Overview of Party Names, Descriptions and Emblems (https://www.electoralcommission.org.uk/media/5134). I trust that the Conservative and UNionist Party's application will be dealt with consistently with the Commission's decisions affecting Old Swan Against the Cuts.
16 February 2021 - [redacted]	Dear Sir/Madam,

[redacted]	I would like to submit a comment on the Conservative and Unionist Party application for the following two descriptions: 1. End Division, No Referendum, Rebuild Scotland 2. Not Another Referendum, Time For Recovery These do not appear to meet the criteria for registration under PPERA as they do not identify the party to the voter. To quote the Electoral Commission's official guidelines: *"If in the Commission's opinion, a voter cannot identify the party from the description, it is not a description under PPERA and cannot not be registered."* Neither of the highlighted descriptions make any reference to the Conservative Party. "End Division", "No Referendum" and "Rebuild Scotland" are all very generic slogans that have been used by numerous political parties, organisations and individuals. [redacted] Initially, I wondered if there is some sort of special allowance for Scottish elections, where descriptions can be used in addition to the party name on regional list ballots. However, having corresponded with [redacted] earlier today[redacted] confirmed that the requirement for descriptions to identify the party to voters applies equally to all descriptions intended for use in Scottish elections. Regards, [redacted]

Subject: 2021-03-24 Conservative and Unionist Party - Application decision CCM:0488985

Dear Alan Mabbutt,

Approval of changes to registered details
I write to inform you that we have approved your application to change the registered details for your party. These changes are in effect as of 24 March 2021. Please allow a day for any changes to appear on the party's entry on the register.

Our full decision on your application is outlined in this message.

Contact us immediately if any of the details outlined below or in the party's entry on the register are incorrect or are not what the party intended.

Identity mark(s) that have been approved
We have approved the following identity marks which will now be included in the party's entry on the register.

	Identity mark
Description(s)	1. Conservative Candidate – More Police, Safer Streets

Candidates standing for the party may use these identity marks on ballot papers at relevant elections in the UK.

Identity mark(s) that have been refused
We have also refused the following proposed identity marks.

	Identity mark	**Reason for refusal**
Descriptions	1. End Division, No Referendum, Rebuild Scotland	To be a registered party description, a description must identify the party. That means where a description appears on a ballot paper, voters must be able to recognise which party the candidate is standing for from the description used. In relation to this description, in our view the description is general in nature and do not include anything that would uniquely connect them to your party. Accordingly, we are of the view that the wording of the description is not sufficient enough that a voter would know it belongs to your party. On this basis it has been refused. On this basis, the proposed description was refused.
	2. Not Another Referendum, Time for Recovery	

This means that these identity marks cannot appear on ballot papers. However, this does not prevent the party from nominating a candidate to stand under the party name.

It is open to your party to submit revised identity marks for consideration. As with all applications we will consider whether it meets the statutory requirements in PPERA.

You won't have to pay a further application fee if you submit an application to us within one calendar month of this message. You will only get one opportunity to submit a fresh application without a fee.

Please be aware that we assess applications on a case by case basis against the statutory tests, taking into account relevant information and circumstances at the relevant time. We cannot guarantee presently any decisions, or initial views provided, on an application submitted in the future.

Whilst this message will no doubt be disappointing to you, I trust you will understand that we are obliged to maintain the register consistent with the statutory requirements.

Our duty to maintain the register

We have a duty under PPERA to maintain the registers of political parties as well as to monitor, and take all reasonable steps to secure, compliance with the rules for political parties set out in PPERA.

In accordance with that duty we may conduct reviews of the registers to determine whether identity marks still meet the statutory tests. This could mean that in future if we may consider that your identity marks no longer meet the statutory tests and so will remove them from the register.

We may also review the party's registered details should other circumstances change, such as details of the party's registered officers or the party's registered name. Additionally, should it come to our attention that the party is not operating in accordance with its constitution or financial scheme this may also give rise to such a review. The party will normally be advised of any such review.

Please get in touch if you have any further queries about this message. You can find guidance in relation to registering and maintaining a party on our website here.

Dear Rachel,

Your application is currently being assessed against the statutory requirements of the Political Parties, Elections and Referendums Act 2000 (PPERA). We expect to make a decision on the application before the deadline for close of nominations, though given the high volume of assessments we are working through at the moment, this is likely to be close to the deadline.

We shall notify you once we have made a decision.

Yours sincerely,

Dear [redacted]

Thank you again for your help last week.

I wonder if you are able to give any indication of when we might get confirmation that we are able to use the new descriptions that we lodged at the end of January? We're keen to let candidates know that there are new descriptions before they complete their nomination papers.

Kind regards
Rachel
