Subject: FOI 102-23 - Response
Attachments: FOI 102-23 - 2015 data.pdf

Dear [redacted],

Our Ref: FOI-102-23

Thank you for your email to the Electoral Commission dated 26 July 2023.

The Commission aims to respond to requests for information promptly and has done so within the statutory timeframe of twenty working days.

Your request is shown below followed by our response.

Please can you provide the data you hold on:
- voter fraud staistics in the past 3 general elections or most recent elections
- the total cost to the commission of implementing the elections act 2022
- the communications plan / strategy for the 2024 election in respect of the elections act 2022

Our response is as follows:

We hold some of the information that you have requested.

Throughout the year, all police forces across the UK send us data about allegations of electoral fraud that they receive and investigate. Every year we report on the number, type, and outcome of these allegations, so that you can understand what's happened and how cases are resolved. We publish this data on our website* which currently provides information for the years from 2017 to 2022.

Attached is a document which includes information on allegations of electoral fraud recorded during 2015, which includes the UK Parliamentary general election held in May 2015.

(*Providing a link to our website is in line with section 21 of the Freedom of Information Act which removes the need to provide information in our response when it is reasonably accessible to an applicant by other means.)

The Commission's programme of work to implement the requirements of the Elections Act is ongoing and total costs are not yet known. As a result we are unable at this time to confirm the total cost for implementation. However, in a Freedom of Information request from July this year, (FOI 087-23, found here on our website) we noted that the cost of the Voter ID campaign ahead of the May local elections was £7.15 million.

For the scheduled May 2024 elections we plan to deliver a targeted campaign in the areas where elections will be delivered. We have yet to finalise the campaign plans but anticipate that the

campaign will include a mixture of TV, radio, social media and outdoor advertising, amongst other channels. We also anticipate working alongside civil society organisation partners to reach people who are more likely to face barriers to participation.

The Commission strives to be an open, transparent authority and I trust that this information satisfies your request. If you are not satisfied with this response, please note that the Commission operates a review procedure, details of which can be found on the Commission website at: https://www.electoralcommission.org.uk/freedom-information/make-a-freedom-information-request.

Please also note that if you have exhausted all internal Commission review procedures and you are still not satisfied you have the right to appeal to the Information Commissioner. Details of this procedure can be found on the ICO website: https://ico.org.uk/.

Yours sincerely

Information Officer
