EA Bulletins are issued on a regular basis. They are one of our key channels for communicating with Returning Officers, Electoral Registration Officers and their staff. Past issues of Bulletins for England, Scotland and Wales are available [here](#). You can also [subscribe to the EA Bulletins](#).

Please [keep us informed](#) of any staff changes within your team. This will help us to keep our mailing lists up to date.

We are sending you this newsletter as it contains important information about the Electoral Commission's work which is relevant to you. The newsletter forms part of the Electoral Commission's public task which has its basis in the Political Parties, Elections and Referendums Act 2000. We will manage your personal information and contact details in line with the General Data Protection Regulation and UK data protection legislation as outlined in our privacy notice (<https://www.electoralcommission.org.uk/privacy-notice>)

Electoral registration: 2023 canvass data collection

Each year the Commission collects electoral registration data from EROs following the annual canvass and the publication of the revised electoral registers. This data plays an important role in our reporting on electoral registration in Great Britain.

We will be asking for the same data as in 2022, and have again been working with the electoral management software (EMS) suppliers to ensure that the data is available in your systems.

We will be in touch by email soon to request the data and we will confirm at that stage how the relevant reports can be generated.

We would like to thank you in advance for your support with this work and for the time taken to supply the data to us.

Guidance

We have now published our resource providing the [rolling registration dates](#) for 2024. This includes timetables for updates to both the full and the open register, and timetables for the publication of election notices of alteration for the scheduled May polls. Our core guidance on publication of the revised register following the annual canvass can be found [here](#), and guidance on publishing a revised register between canvasses is available [here](#).
